Software Activation

Once the trial period expires, user must activate the software in order to continue working with ScheduleCleaner. Two options are available:

- Activation over internet;
- Manual Activation.

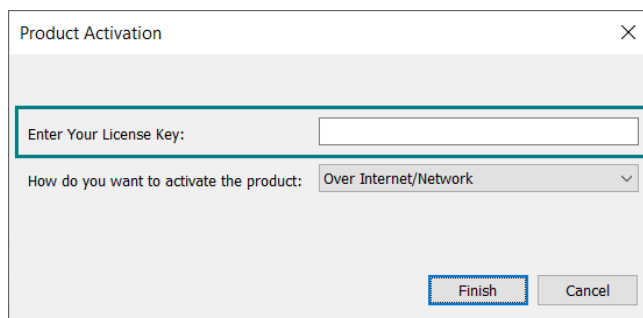

Activation over internet

To activate ScheduleCleaner over internet, follow the instructions steps below:

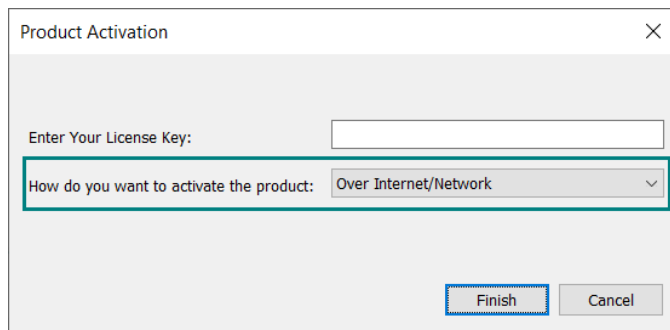

1. In the *Trial* window, click on the *Activate* button. You can do this during the trial period or after the trial period expire.

2. In the *Enter Your License Key* field, insert the license key that you had received from the customer center.

3. In the *How do you want to activate the product* drop-down list select the *Over Internet/Network* option and click on the *Finish* button.

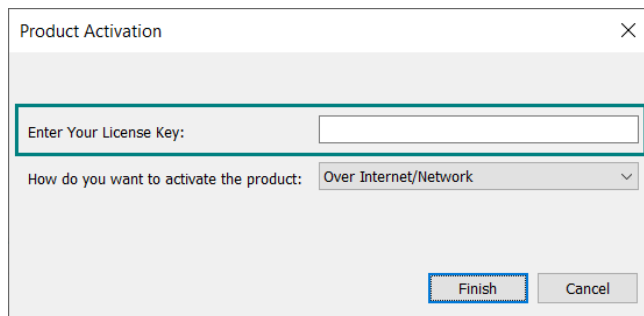

4. If the License Key is valid and the activation passed successfully, you can start working with ScheduleCleaner™.

Manual activation

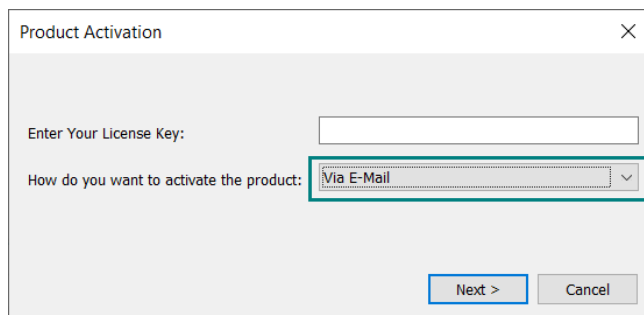

In order to successfully activate your ScheduleCleaner™, you will need to have read/write privileges on the registry. We recommend you to have Administrator privileges.

To manually activate ScheduleCleaner, follow the instructions steps below:

1. In the *Enter Your License Key* field, insert the license key that you had received from the customer center.

2. In the *How do you want to activate the product* drop-down list select the *Via E-Mail* option and click on the *Next* button.

3. Browse the location where the off-line requested file will be saved. By default, the name of the requested file is "LicenseRequest.dat". Once the file is saved and the "Finish" button is pressed, the e-mail form will appear for sending the required information to the support team.

The screenshot shows a 'Product Activation' dialog box with a close button (X) in the top right corner. The text inside reads: 'Please send an email to support@schedulecleaner.com with your license request data and we will send you the license response activation file.' There are two radio button options. The first option, 'Generate request file and create email form', is selected and highlighted with a red box. Below it is a text input field and a 'Browse...' button, both also highlighted with red boxes. The second option, 'Import response file to activate the product', is unselected. Below it is another text input field and a 'Browse...' button. At the bottom of the dialog are three buttons: '< Back', 'Finish', and 'Cancel'. The 'Finish' button is highlighted with a red box.

- 4. Once we receive your request, we will generate the response file and send it back to you. After you import the request file in the appropriate field, click Finish and ScheduleCleaner will be activated.

The screenshot shows the same 'Product Activation' dialog box. In this view, the second radio button option, 'Import response file to activate the product', is selected and highlighted with a red box. Below it is a text input field and a 'Browse...' button, both also highlighted with red boxes. The first option, 'Generate request file and create email form', is unselected. Below it is another text input field and a 'Browse...' button. At the bottom of the dialog are three buttons: '< Back', 'Finish', and 'Cancel'. The 'Finish' button is highlighted with a red box.
